DETAILED ACTION

In view of the appeal brief filed on 9/7/06 PROSECUTION IS HEREBY REOPENED.

Status of Claims

Claims 1-22 are pending in the application.

Claims 1-22 are allowed.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Specification's page 9 discloses Fig 1 is prior art. Therefore Fig 1 is amended to indicate prior art (see attached amendment for Fig 1).

Allowable Subject Matter

Claim 1 allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts which teach a remote copy system comprises of a primary copy, a secondary copy and a tertiary copy comprising:

a copy component operable at said primary to create a copy for download onto a portable physical storage medium for offline transport to said secondary for upload;

a synchronization component for synchronizing data at said secondary with data at said primary using an online link in response to a request for synchronization from said secondary,

..and said metadata component being operable to limit synchronization of said secondary copy when uploading said tertiary copy from said portable physical storage medium at said secondary to said portion of storage having said dirty state indicator at said primary.

Claims 8,13,18 have similar limitation as those determined to be novel in claim 1, and have not been found in the prior art.

The remaining claims, not specifically mentioned, are allowed for the same rationale as their parent claims.
